The cost of the road, it remarks, is just one-fourth the increased capital of the State. If, then, the entire cost of the roads was thrown away, the State has still acquired three hundred millions in the short space et ten years! But it is not supposable that this sum is thrown away. The net profits made by the roads will pay 7 per cent. interest (which we may call par) or full twothirds the entire cost. COMMON SCHOOLS OF MISSOURI,-The Annual Report of the Superintendent of Common Schools of Missouri for 1859 shows that the number of children in the State between the ages of 5 and 20 is 367,548. The number of district schools organized is 4,916; the number of children taught during the year was 159,914, of whom 87,329 were males and 72,612 females. The whole number of school houses is 3.878. Colleges 31: Academies 100; Teachers 5,053, of whom 4,198 are males; 855 females.

RESULT OF HOLES IN THE STREET. - WM. Wallace, on Monday last, recovered from the City of New York five thousand dollars damages for injuries sustained by him in consequence of his falling into a hole in the sid-walk. On a former trial, a verdiet was given in his favor of \$500; but the city appealed and obtained a new trial, when the jury increased the damages ten fold.

A PERTINENT QUESTION.-The Eaton County Republican, referring to the "Democratic (!!) disunion opposition to the organization of the House of Representatives," asks the following pertinent question:

.. When will some Democrat in Congress thunder out the indignation which every honest patriotic heart must feel at the specta-cle of a great party in possession of the Fedcle of a great party in possession of the Federal Government, boldly announcing that it is determined upon revolution in case it sho'd be defeated at the ballot box?"

Correspondence of the Sentinel.

Madison, Jan. 16, 1860. DEAR SENTINGL :- EBERHARD WELTER, late New York volunteer to Mexico, appear ed in undress uniform, consisting of a clean face and sack coat, and addressed an excited audience in the Senate chamber, last night. The applause was so unrestrained that it broke the backs of his aweetest sentences. WELTER is a very intellectual looking man on the back side of his head. His mental Continuous and a standing collar. I formed a very high opinion of his moral qualities on learning that he had a most affectionaic regard for sour apples;

The economical throes and pages that

have seized legislators, in regard to buying newspapers, will not prove chronic, or fatal. The Advocate says:

The Democratic party of Wisconsia had once a wireson, reliable majority of ten thousand. It is now confliction every time it goes to the polls. What has diese it? The party itself has undergone no change in ophitom; its platform is the same. But it has substituted, which approxy feathy which is almost Quixuite, to be compromised by certain extreme positions assumed 1) the President, which are repulsive in nearly every members of the party in this Sate. There must be a nearly to vindicate corresponds from this falso uttimes, and the very first opportunity will be grasped to accomplish it.

The Advocate says:

After being paid several hundred dollars by the State, for debating, offering amendments and voting them down, they will conclude that light is better than darkness, and pass a bill authorizing members to subscribe for ten or twenty papers at the expense of the State. Most everybody is sensible with regard to laidly or supporting institutions to educate the state of t children, but there they stop. It seems to me that it would be just as logical to say that a man should not eat after he gets his scholar has learned to read, he wants newsthoughts to feed his mind. There are many men in every Assemblyman's district who would be immensely benefitted if they could but those who have stopped in secluded farm and newspaper offices are the universities

that educate men. Common Schools make readers, but what reads the newspapers. Upon the proper exercise of the elective franchise depends the permanance of a Republican government; and I have no patience with those who would spend millions for schools, and to feed fat professors, and let poor printers to starvethat create an appetite for knowledge, and then, in a fit of parsimony, refuse food. If we must have a session here every year, let the and such has been the demand for it, that people receive some benefits in the shape of books, pamphlets and papers. Whatever is spent in this way will bring forth ninety fold of good, or else all education is wrong. This talk about economy in cutting down the doorkeeper's wages, and not getting papers, and buying no more postage stamps, will never make a great man of anybody. REFORMS.

There was some discussion in the Assem bly on the report of the Judiciary Committee, recommending the repeal of the law which allows parties to be sworn in their cause of the destruction of the Pemberton own behalf. More than half the lawyers on the floor were against the repeal of the law. Mr. LYON admitted that men committed perjury under it, but he had never seen a case where

he thought a jury had been misled by the testimony of parties. Gen. Bouck, who is one of the good sound men here, opposed its Senator HANGUETT reported a resolution yesterday, in favor of amending the Consti-

tution in regard to the Grand Jury system. Rev. Mr. Normis, of St. Raphael's Church, refuses to officiate as one of the Chaplains of the Legislasure. He considers it contrary to the spirit of the Constitution, and beside after reading the debate on the resolution to invite the clergy, his self-respect would net permit him to accept the invitation. Reli gious exercises will be confined to those who do not think praying unconstitutional.

SRIMMILK'S NEW PAPER .- A delegation of respectable citizens waited on SKIMMILE recently, to persuade him to start a weekly paper in this city. They represented the facts of the case clearly and dispassionately; city needed more newspapers, especially small bottle of ink, and a paste brush, and went to work on a prospectus. During his indefitigable labors on the said prospectus, gentlemen at diff. ent times, who evinced a great deal of anxiety in regard to the new aper. The said four-and-twenty gentlemen, t turned out, all intended to start weeklies. lowever, Skinnick was not deterred by this, but worked manfully day and night on his prospectus. At its completion, the respectable citizens contributed twenty cents each, and SKIMMILK hired a room to do editorial work in, and to store his barrel of mucilage. He is now, we are happy to state, able to announce that his prospectus is ready, thirteen presses running night and day have not been able to supply the people. We refer to this as an evidence of the enterprise of

inseperable-now-and-forever-weekly-emporiumwith a pistol. It is very soothing to one's best of weapons, always says so commiseratingly, when our ball hits the ceiling instead of the bull's eye-" there, that was a capital shot, only a leetle too high," We have a duel once a week in this way, always killing our autagonist (though we came near killing ourselves once or twice, by trying to fire the wrong end of the pistol.) Kallage has a fine shooting gallery, and is a crack shot himself. Any one who feels disposed to practice with a rifle or pistol, can do so here vith safety. (We always practice blindfolded. Kgilogo says we're not so apt to de stroy the ceiling.) Young gentlemen who intend running for Congress should go over and take a few lessons. They will find Mr. K. one of the most obliging fellers in

that because there were only thirteen papers

We were created to quite an unusua luxury last evening, in the way of musical matters, through the efforts of Mr. E. WHIN-BERG. Owing to the fact that a number of the best performers belonging to the Musical Society had volunteered their aid for the occasion, the programme was in every sense a varied and attractive one. Seldom have we spent an evening more pleasantly in Albany Hall. The performance led off with the overture to Rossini's opera of La Gaza La-

dra, given in the best manner, and descryingly applauded. It is not necessary to say that EMIL WEIN neng acquitted himself with many honors. It is a source of pride to us to recognize in this young man one of the best violinists in the country. The charms of his sclos are acknowledged in this community by all the practical ears. We never wish to hear Vieux. temps' Funtasies better expressed. It is with pleasure that we announce the concert to

The New Minister to France. The President has nominated, and the Senate confirmed, Mr. Charles J. FAULKNER, of Virginia, as Minister to France. This was the office that Jons A. Dix, of New York, so much coveted, and for which he sold out Lie "Free Soil" principles of 1848. Mr. Bu-CHANAN, however, declined to ratify the bargain, and Mr. Dix is left to whistle for his

FAULKNER from all chance of Democratic preference, but very likely lead to his being tarred and feathered and driven out of the State. Of course Mr. FAULKNER must have long since recented the opinions he so holdly avowed in 1832; but the mere fact of his having ever entertained them would probably have constituted an insuperable bar to a Federal appointment, if his recent Disunion speech had not commended him afresh to Democratic favor. Mr. FAULKNER, it will be remembered, declared that the election of a Republican President would justify Gov. Wise in seizing upon the Harper's Ferry arsenal and offering armed resistance to tim General Government. It is for these treasting as a Minister to France. President nominates and a Democratic Senate confirms him, as Minister to France.

Who are the Traitors?—It will be observed by the proceedings in the U. S. Senset, that the Democrats have formally ensured the disputy and proportions of a great nation. The Consitution was framed and adopted in a spirit of conciliation and mutual concession. If we do not inherit all the virtues, the state of the st dorsed the position taken by Gov. Wise and Mr. FAULKNER, that the election of a Republican President would justify "the seizure of Harper's Ferry Armory" and armed resistance to the Federal Government. This they have done by confirming Mr. FAULKNER as Minister to France. The issue was distinetly made, and several Democratic Senators made speeches sustaining Mr. FAULE. NER's views and declaring their concurrence in them. We are gratified to see that the Republicans were all on the side of Union, Law and Order. Hereafter, let it be remembared that the Democrats have recorded them. salves in favor of committing the same orime for which John Brown was hung, and in faver of armed resistance to the will of the majority constitutionally expressed.

PERSONALLY RESPONSIBLE .- The New York Tribune suggests that if Railroad Companies are liable in pecuniary damages for disaster to life and limb, it sees no reason why companies like that of the Pemberton milis, are not equally liable, especially under such circumstances of flagrant disregard for the safety of their employees, as the investigations of the Coroner's inquest have already disclosed. It thinks, therefore, that one of the most effective forms that charity can take in this instance, both as regards the past and the future, the dead and injured of this calemity, and the possibility of similarly circumstanced unforunates hereafter, would be to create a purse to test the liability and responsibility of the parties to whose culpability the shocking results developed are to be charged. If the existing Company, on or the memors of any former Company, can occatio members of the Monse shun him, and

A Public Meeting Suggested.—The N. Y. Tribune suggests that a public meeting be held in that city, of the trading, industrial, commercial and financial interests, without respect to party, with a view to hasten the organization of Congress, and "restore a truly patriotic and healthful state of the public feeling after the past weeks and mouths of ment of its receipts: lying and standerous partisan efforts to stimulate irritation and agitation in the country."

The Great Eclipse. The total eclipse of the sun to take place on the 18th of July next is looked forward to with great solicitude by the scientific world. The Director of the Dorpat Observatory was the first to remark that at the mo-

ment of obscuration four of the principal planets—Venus, Mercury. Jupiter and Saturn—will appear in the vicinity of the eclips of more and arm—will appear in the vicinity of the eclips of sun as a kind of rhomboids! figure, a phenomena of such extraordinary rarity that many centuries will elapse before its repetition. Darkness will commence and terminate upon the land, the localities being California and the Red Sea. Between these extreme points the eclipse will be visible in North America. from whence the moon's shadow will cross the Atlantic and traverse Spain; total darkness, including the following important towns in that country: Oriedo, St. Vincent, Santander, Bilboa, Vittoria, Burgos, Pampeluna, Saragossa and Valencia. The line of totality will then cross the Mediterranean and enter Africa, passing across Algiers, Bezau, Tezar, Sockna, Sebba, Goddona and Mourzuk. Thus, although this remarkable eclipse will not be total in any part of Great Britain, it will be so in a large portion of Spain and accessible portions of Africa. A correspondent of the Cincinnati Gazette, dating from the Observatory in that city, has calculated the places of the four planets for Washington, near noon of that day, and says, we have a tradition in Chief, 1856, and approved by the legal voters of said city of Milwankee, at an election for the planets were in conjunction; and Mr. Ballla, in his "Traite de l'Astronomie Indienne," has told us that Jupiter, Saturn, Teneda de l'Astronomie Indienne," has told us that Jupiter, Saturn, Teneda de l'Astronomie Indienne," has told us that Jupiter, Saturn, Teneda de l'Astronomie Indienne," has told us that Jupiter, Saturn, Teneda described in the bonds authorizing indienne, and Mr. Ballla, in his "Traite de l'Astronomie Indienne," has told us that Jupiter, Saturn, Teneda described in the bonds authorizing in the bonds authorizing the complaint to the normal accession in the bonds authorizing in the described in the bonds authorizing in the decrement of the complaint tof principal and interests of bondhelders, reference was made to a planets-Venus, Mercury. This was avery remarkable phenomenon, and one of so much interest to the ancients that the Chinese made it the lasis of their calculations.

The approaching phenomenon is one of no less interest, though it may be of no practical utility. Indeed, there should be a greater interest attached to it, from the fact that it will never again be repeated; we say never, because it is extremely probable that some millions of years will elapse before these bodies will again occupy the same relative positions. The sun will be eclipsed here at seven of clock on the morning of July 18th; a little more than one half of its disc being covered by the moon's shadow. At the time of totality, Venus will be seen about five degrees of him, and Mercury and Saturn at distances of tempty and thirty degrees east. These south of the sun, Jupiter eight degrees of him, and Mercury and Saturn at distances of twenty-six and thirty degrees east. These four planets will form a rhomboid, the angles at Saturn and Venus being nearly equal.—

CHIEF JUSTICE TAKEY .- It affords us great pleasure to announce, says the National Intelligencer, the convalescence of Chief Justice Taner, and the confident expectation that he will resume his geat in Court very shortly. His attack was a severe catarrh of pneumonic form, and over which a well-preserved constitution, under the skillful treatment of his medical advisers, has

triumphed. ALL OR NONE .- The Richmond Enquirer having suggested that half of the N. Y. "hard" delegation be admitted to the Charleston Convention, the Albany Atlas and Argus | po replies that the thing is impossible. It denounces Wood as a ruffian and pretender, and says that if the Scorr delegation is not voted in at Charleston, New York will not be represonted at all in that Convention.

North from Milwankes to Green Bay, And by section 26 of the charter, "all the powers, rights, privileges and franchises heretofore granted and conferred upon the Green Bay, Milwaukee and Chicago Railroad Company by an act incorporating that company, approved March, 1851, and the several acts in addition thereto or amendatory of the same, so far as the same relate to or anthorize the location or construction of a railroad north of the depot of the Green Lay, Milwaukee and Chicago Railroad Company in the city of Milwaukee, are, with the consent of the last mentioned company, taken from it and transferred to the railroad company then incorporated.

By reference to the ordinances of the Common Council of the city of Milwaukee it appears that by an ordinance passed April 30, 1853, and adopted by the legal voters May 19, 1863, city bonds were authorized to be issued to the Green Bay, Milwaukee & Chicago Railroad Company not exceeding in amount two bundred thousand dollars. By an ordinance

road Company not exceeding in about the hundred thousand dollars. By an ordinance passed on the same day, a similar amount of bonds were authorized to be issued to the La Crosse & Milwankee Railroad Company.—And by another passed on the same day, a similar amount to the Milwankee and Fond du Lac Railroad Company. These several ordinances authorize honds to be issued on the terms and conditions specified in an act authorizing the city of Milwankee to loan its credit in aid of certain Railroads approved April 2d, 1853, and on the terms and conditions therein provided. These appropriations to the three companies mentioned in the act amount to six hundred thousand dollars, the extent of the sum authorized by the act and they exhausted the powers granted by the act to the Common Council. And from this, it may be inferred that the act was not so construed as to include any other companies.

it may be interred that the act was not so construed as to include any other companies than those expressed.

The act of July 12, 1853, included the Milwaukee and Watertown Railroad Company, (which had been incorporated and organized previous to the act of April 2, 1853) and any other railroad company duly incorporated and organized for the purpose of constructing railroads leading from the city of Milwaukee. This is the only act supplementary to the act of April, 1863, referred to in the city bonds. The only company mentioned in this act, is the Milwaukee and Watertown Railroad Company. Whether there were any other companies of the description, then incorporated and organized, in need not enquire. The Milwaukee and Superior Railroad Company was not then incorporated and organized; and it could not have been contemplated by the Legislature as a company was then incorporated for constructing a road to Green Bay, and which was specially mentioned in the act of April, 1853.

Orants of power are to be construed literally; and legislative grants are not to be so construed as to include subjects not in existence, nor not created in the grant, nor specially provided, if created in future. This act must necessarily relate to companies incorporated and organized at the date of its approval. There is no the least reference in the act, to companies thereafter incorporated and organized, out the letter of the act grants the power expressly to issue bonds to companies then incorporated and organized.

There is no room for constraing the act so as to include companies to be thereafter incorporated and organized.

of the dark hours of the responding what the rash ravings of disunionists and agustors now do, that Constitution proved to be our refuge and safety. The bonds were issued to the Railroad The Court in the case of Alexander S. Kelley vs. the Jefferson Branch Bank, in the Supreme Court to-day. He re-affirmed the decision in the case of the Sandusky Bank vs. Wilbur, 7th Ohio State Reports, 481, that the sixteenth section of the act incorporating the State Bank does not create a contract Judges Scott and Peck dissented.

The Court held unanimously that the decisions of the Supreme Court of the United States, in the class of cases to which the 25th section of the judiciary act applies, although oity bonds, they are justly to be deemed equally as reckless of their own interests as the Common Council were of those of the inhabitants of the city.

By the acts under which these bonds pur-

By the acts under which these bonds purport to be issued, the inhabitants of the city are subjected to taxation for the payment of principal and interest. For this reason it is right that the legality of the bonds should be ascertained and settled; for the people will not consent to be taxed for the payment of an unauthorized and illegal debt, particularly when they have cause to feel that the city authorities have not been guardians of their interests.

anthorities have not been guardians of their interests.

The city's claim for its proportion of the proceeds of the sale, is founded on the bonds issued to the railroad company. If I had any doubts of the lilegality of those bonds, I should either direct that the proportion of money claimed upon them be retained until a suit between holders of them and the city were determined. But having no doubt upon the subject, I think there is no necessity for delaying the distribution of the fund. The bondholders were represented indirectly by the City Attorney, who faithfully and ably advocated their rights, and the duty of the city as their debtor to preserve them, but I can come to no other conclusion than that I the bonds of the city to the railroad company were issued withoutauthority of law and are void. It therefore follows, that the bonds of the railroad company are held by the city without consideration, and are to be considered the same as if they had not been issued by the company.

A. M. BININGER & CO. (ESTABLISHED 1778.) SOLE IMPORTERS, No. 338 Broad Street, New York. THIS DELICIOUS TONIC, ESPECIAL-Medical Profession and the Family, ossesses those intrinsic medicinal properties, OLD AND PURE GIN.

Medical.

ONDON

The business of manufacturing spurious Gins, and offering them as beverages, under the titles, "Aromatis," "Uordial," "Wedicated," &co., has become so common that the public are justly suspicious of nearly every thing that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 17/s) to supply the pressing popular need, and to inauguste a new era in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly yindicates our claim to public confidence.
